PASSES WORRYING ALBANY.

A FAMINE THE RESULT OF MR. JEROME'S ACTIVITY.

Legislators Who Would Like to Go Home,
but Miss Certain Envelopes—Fate of
One Member Who Sent Back a Pass
—150 Reasons for Opposing a Bill.

ALBANY, Feb. 18.—The question of the hour at the Capitol is not so much whether the Legislature shall enact measures to secure additional revenues for the State Treasury as whether the pass game has been cut off permanently. In the words of a statesman the situation is this: "I tell you, if this keeps up another week or two there will be the biggest kind of a famine in the pocketbooks of many members of the Legislature. It costs me \$2.50 to go to and from New York, and that is a lot of money for me. It may result in many members coming to the conclusion that they have more urgent business in Albany than at home, and thereby they will get even with the railroads."

While it is known that there is such a thing as a provision in the State Constitution which prohibits a member of the Legislature or a public official from using a pass, still somehow or other members of the Legislature have been seen on railroad trains with pieces of paper which looked much like railroad passes. The pass question has been one of great importance every year.

A few years ago a member from New York City who was known as a straight-forward and honest man at least, he was always telling his friends that he was and took every occasion to have that fact conveyed to the other members of the Legislature—received a Pullman pass. One day the question of Pullman passes came up and this honest member resented the imputation that he had one.

"No, sir, I received a pass from the Pullman people, but I never used it," he said.

"What'd you do with it? Send it back?" asked a member who had no scruples about accepting such emoluments.

"No, not exactly that. I handed it over to my clerk and he is using it. I don't propose to let any corporation say that it has ever granted me a favor," was the reply.

When the Pullman company wanted to get a bill through the Legislature authorizing it to sell through on its cars there was apparently no opposition to it until it came up on the order of final passage in the Assembly. The chairman of the Assembly Finance Committee was dumfounded at the display of opposition that thereupon occurred.

"What reason is there that this bill should not pass?" he demanded.

"There are 150 reasons why this bill should not pass," spoke up the Hon. Paddy Roche, then a member of the lower house.

The bill was laid over. A couple of days later envelopes bearing the imprint of the Pullman company were laid on the different desks. The bill went through that day without a murmur of opposition to it.

Two years ago Assemblyman Landon from Dutchess county, whom President Roosevelt has appointed to a Berlin consulship, stirred up a hornet's nest by asking the Attorney-General if he had a right to accept a Pullman pass. Mr. Landon found later that it was a very interesting thing to do. Every one of his pet bills was defeated or permitted to die in committee.

That same year a New York member received a Pullman pass and travelled from New York to Albany on it. When he reached Albany his conscience troubled him to such an extent that he sent back the pass to the company with a check for the trip from New York to Albany. That man is now in an institution for the care of the insane. One member said he showed his first exemption from brain disorder in sending his check in addition to the pass.

It is a fact that while there are many members of the Legislature who, while they will not accept passes for themselves personally, will listen to the entreaties of constituents and secure passes for hungry people who don't want to pay fare. A pass cuts a lot of ice with some constituents.

One well known Senator who had long refused to do anything in this respect finally yielded to the persistent and pitiful appeals of a constituent and secured a pass for him. When he handed it to him he said:

"Now, be sure, don't let any one see that pass, as I don't want to be bothered by other constituents."

The man promised to do as directed, but when he met the Senator again he was much out of breath.

"Senator," said he, "I had to let one man see that pass. I got on the train and when the conductor came along he asked for my ticket. I told him I didn't have a ticket, that I was riding on a pass. He asked to see it, and I refused, as I said I had been told not to let any one see it. He got mad at me and said: 'Show me that pass or you'll pay your fare or get off the train.' And, Senator, I had to let him see it. But he was the only one who did see it."

Thursday is the most important day in the week for members of the Legislature. Every second Thursday is pay day, and furthermore every Thursday a trusted messenger goes about delivering little envelopes. But those envelopes didn't make their appearance a week ago until late in the afternoon, and then there were but a few, and there was much woe over that fact.

When the time to go away came and the usual number of envelopes were not in sight there were a number of members who wanted to go home who became almost frantic over the thought of having to pay railroad fare. Summoning messengers about them as quickly as possible, they beat up the town looking for the man who looked after their welfare. They didn't find him.

Some waited here until Friday, expecting to find him, but they didn't. They even telegraphed him—at his expense—about it, but it didn't do any good.

And now there are some members who are asking if it is really a permanent anti-pass crusade on the part of Jerome.

"Jerome will want some legislation, and then maybe he'll not be so active in meddling with things that don't concern him," ruefully remarked a member of the lower house.
